"The rising star of the night, however, was young Daniel Fromberg. "BOOK HIM AGAIN" was the note I read from Bottle staff after the show and he got a nice write-up in his hometown paper (Oak Park) following the show. Curious at the young star's abilities I immediately went to his Bandcamp site. Daniel's tracks are dripping in shoegaze with some industrial undertones; this kid knows what's up. I mean really, where was this kid when I was 13? It's like if Kevin Shields had Trent Reznor's bastard child and raised him alone – hopefully we'll hear more from Daniel in the near future." - [Ashleigh Dye](#).
